REBELLE ARCHITECTURAL LIGHTING designs families of coordinated architectural lighting for both exterior and interior applications. Each family offers a variety of scales and mounting configurations that maintain a consistent image and style. The coordination and specification of lighting is simplified with products to suit every building condition. The current family lines offered by Rebelle are a result of 30 years of product innovation and evolution. There are five families and a collection of complimentary steplights suitable for any project.

For more information on all Rebelle products, visit our website:
