SAMPLE CATALOG NUMBER: 1573RSS - 15L - 40 - 120 - LV - WT

Using this catalog number would order 1 model 1573RSS low level area light with 40 x 0.28 watt LEDs with a color temperature of 4000K wired to 120 volts with a slotted stainless steel faceplate.

CONSTRUCTION

Materials

Faceplate: Stainless steel, #4 brushed finish. Housing: .064" aluminum protected with high gloss white polyester powder coat. Lens: Tempered, sealed prismatic glass. Junction box: Gasketted, die cast aluminum, bottom mounted (field adjustable to rear mount) suitable for through branch circuit conductors, suitable for 90°C. (3) - 1/2 NPT plugs, neoprene rubber gaskets.

Electrical components LED driver constant current, integral mounted, 460mA (15L) or 500mA (7L). LED boards >82 CRI.

MOUNTING

The Sightlines 1573RSSLED series is designed for concrete pour installations and hollow wall construction. Units are non IC rated so the insulation, if any, must be kept 3" away from the housing and the housing should have 1/2" clearance all around except at the mounting points/surface. See Installation Instructions on the Rebelle website for further details. Conduits must be sealed against water entry into the fixture housing as outlined in the National Electric Code.

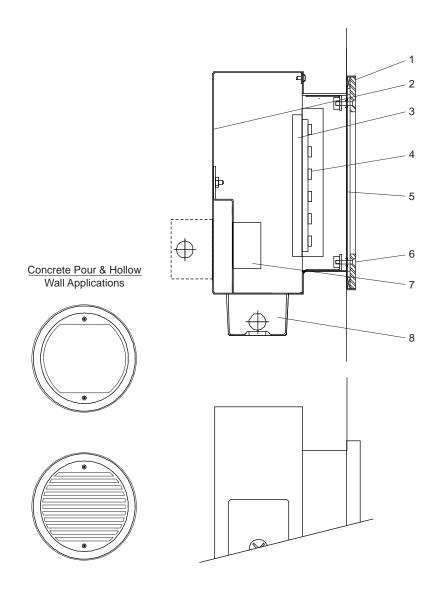

OPTICAL

The 1573RSSLED units are designed to be mounted within 1' to 2' feet of the ground or floor level. The faceplate is provided in a slotted style to eliminate glare and provide illumination on paths, aisles and stairs. An open face with a prismatic glass lens is available for areas that require higher intensity levels. The reflector system is sealed against the ingress of water and other contaminants.

PROTECTION

The Sightlines 1573RSSLED series is listed for use in wet locations within four feet of the ground to CSA and UL standards. Conduit must be sealed to exclude water from entering the housing.

Sightlines 1573RSSLED Detailed Product Description

- 1 Gasketed Faceplate Stainless Steel with Enclosure Trim
- 2 Housing Aluminum Protected with White Polyester Powder Coat
- 3 Thermal Heat Sink Panel
- 4 LED Module
- 5 Tempered and Sealed Prismatic Glass Lens

- 6 (2) #10 24 Flat HD Cap Screws Stainless Captive
- 7 LED Driver Constant Current IP66
- Junction Box Suitable for 4 No. 12 AWG Through Branch Circuit Conductors Suitable for 90°C. (3) 1/2 NPT Plugs, Neoprene Rubber Gaskets, Bottom Mount Standard (Back Mount is Field Adjustable)
