Cast Low Level Area Lights

The Sightlines Cast family is a collection of architectural luminaires for recessed applications.

These clean and simplistic shapes are designed to complement any architectural expression. Faceplate designs are all cast marine grade aluminum combined with exposed hardware in stainless steel to minimize corrosion in exterior conditions.

The LED luminaires in the Sightlines Cast collection are available in a variety of lumen outputs to suit specific project requirements.

Available in louvered or open faceplates, the Sightlines Cast family is available with many options. Rebelle's eight standard powder paint finishes are available and RAL or custom powder paint finishes can also be specified.

Detailed information on specific Sightlines Cast luminaires can be found on our website.
