

These bollards are part of the Orchestra family of luminaires — designed to simplify the coordination and specification of lighting.

While maintaining a consistent image and style, Orchestra offers distinctive shapes, sizes and finishes which blend into every condition of your building.

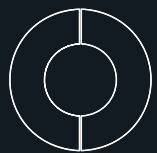

Optic systems include perforated metal shield or glare band and clear or frosted lens.

A variety of light distribution options are provided by a unique reflector system which is field adjustable to three positions.

Listed for wet locations to CSA and UL standards.

For detailed information on individual fixtures please refer to our website [rebelighting.com](http://rebelighting.com)
