The Saturna family of luminaires consists of clean simple lines that form a classic shape to suit any architectural expression.

The Saturna shepherd's hook mounted luminaires provide symmetrical illumination with a dramatic light pattern. The large reflector disk directs most of the light down. Two scales are offered for greater flexibility of application.

**4007x2**  
*Also available in a double shepherd's hook configuration.*

The standard frosted tempered glass lens provides a subtle lighting effect, softening and diffusing the light. The marine grade aluminum construction of these luminaires ensures longevity when used in exterior or interior applications.

Saturna shepherd's hook mounted luminaires are listed for wet locations to UL/CSA standards.

Rebelle's powder paint finishes are available. RAL or custom powder paint finishes can be specified.

For detailed information on all Saturna luminaires please refer to our website [rebellelighting.com](http://rebellelighting.com).
